

Salamat Gulod High School!

The page about Gulod High School:

http://www.geocities.jp/walsh_sensei/gulodhs.html

Dear Students of Gulod National High School,

Hello, we are the students of Momoyama Gakuin High School in Osaka Japan. In our English class, we learned about your school. Our teacher, Mr. Walsh told us all about his visit to your school and showed us many pictures. After that we read the web page on Mr. Walsh's web site, and finally, Ms. Osti Wade from Cabuyao came to visit us and told us more about the Philippines and Gulod High School. It was very interesting. Thank you very much.

Some of us have gathered some presents for you, and we all made a 'semba-tsuru'. A semba-tsuru is a made of 1000 origami cranes. It symbolizes a wish for safety and health. In Japan cranes portray a life of 1000 years, and cranes can fly all the way to the Milky Way! We believe that together, we, the youth of the world, can create peace, sustainable development, and make the Earth a better place to live for all people. Let's join together and make this dream come true!

Sincerely,

The Students of Momoyama Gakuin High School
